## PROJECT:

### “Quarter Vacancy”

**Description:** Quarter Vacancy is a **user-friendly web application** designed to simplify the process of **finding and booking** hostel rooms, PGs, and small flats. It connects individuals seeking accommodation with those offering shared spaces. Whether you're a student searching for a cozy hostel or a working professional looking for a PG, this platform makes the process seamless and hassle-free.

**Technology Used:** HTML, CSS, JavaScript, MySQL
